Devices to be added

Adding device

Remote radio frequency (RF)link method
⚠(Only for MS-101R/MS-101WR)

① Press the pairing button for 5 times until your electric devices flash for about 2 times,and then turn on the wall panel transmitter to successfully pair.After the pairing is done,you will be able to control the switch remotely.

② Repeat the procedure above to pair another wall panel transmitter.The maximum number of the transmitter switch is six.

③ Press the pairing button for 10 times until your electric devices flash for about 4 times,and then it will start to reset.

Reset Method

Press and hold the button for about 7 seconds until the WiFi blue LED blinks fast.

TROUBLESHOOTING

Q: How to set indicator light as rapid flashing?

① Power on device.
② Hold the reset button for 5s.
③ Confirm indicator light is now rapidly flashing.

Q: How to set indicator light as slow flashing?

① Power on device.
② Hold the reset button for 5s.
③ Confirm indicator light is now rapidly flashing.
④ Hold reset button for 8s until indicator light is slowly flashing.

The new added device needs 1min to connect to WiFi and the Internet if it stays offline for a long time, please judge the problem by the WiFi LED status.

WiFi LED quickly blinks one time every second;

⑤ Add the device successfully, you can edit the name of the device to enter the device page by click "Done"

WiFi Switch failed to connect to your WiFi:

● Maybe you have entered wrong WiFi password.

● WiFi Switch is too far away from your WiFi please take it closer.

● Make sure your router is MAC-open.
If still failed,try to open a mobile hot spot and add again.

Set your Echo speaker by Alexa APP
⚠ (Only for MS-101/MS-101WR)

1.If you have finished installing Smart Life,just open Amazon Alexa App; log into your Alexa account with password.

2.Click the menu on the top left –click "settings", choose "Set up a new device"(choose a device like Echo)

Note:When below page appears, long press the small dot on your Echo device until the light turns to yellow.Then click "Continue"on the App.

Attention:
The mobile phone can not open a variety of VPN software.

3.Choose your own Wi-Fi and wait for a few minutes. After watching an introduction video,click "next step", then it will enter Home page automatically. Now the Echo has been connected to Wi-Fi successfully.

Enable Smart Life Skill in Alexa APP
1: Complete product networking configuration in the App
Complete the device's networking configuration according to the prompts in the App.
Note: In the App, change the name of the device to an easily identifiable name such as Alexa; names are usually in English, such as "bed light".

2. Configure the Amazon Echo device
(If you have already configured Amazon Echo, you can skip this step. The following instructions are based on the iOS client.)
●Make sure you Amazon Echo device is powered on and connected to a Wi-Fi network.
●Open the Alexa App on your phone. After successful login, tap on the menue in the upper left corner of the Home page, select "Settings" and tap "Set Up A New Device" to set up the Amazon Echo.
●Choose your Amazon Echo device type and language for connecting. Press and hold the small dot on the device until the light turns yellow. Then tap "Continue" to connect to the hotspot.
●After connecting to the Amazon Echo hotspot, return to the page. At this point, the connection is successful.
Tap "Continue" to proceed to the next step. Choose a Wi-Fi network to connect to. Amazon Echo will take a few

minutes to try to connect to the network.
●After the network connection is successful, tap "Continue". An introduction video will appear. After the video ends, tap "Continue" to jump to the Alexa Home page. You have now completed the Amazon Echo's configuration process.

3. Key step —— Link Skill

●Tap on "Skills" in the Alexa App menu.

●Then search for "App Name". Tap "Enable" to enable the Skill.
●Enter the App account and password, then tap "Link Now" to link your App account to enable the Skill. Now you can start your smart home journey.

Control the Light Switch by Voice
After the above operation is successful, you can control the Light Switch via Echo.

1. Discover Devices
Firstly, you need to say to the Echo: Echo (or Alexa), discover my devices. Echo will start to find the device which is added in Smart Life APP. It will take about 20 seconds, then Echo will tell you the result.
You can also click "Discover devices" in Alexa APP, then it will show the devices that have been found successfully.

2. Control Device by Voice
Note:The name of the device must be consistent with the addition of Smart Life APP.
You can also group the Light Switch and give instructions to control them together.

Note:
Echo is one of the wake–up names, which can be any of the three names (Settings): Alexa,Echo,Amazon.

3. Support Skill List
You can control the device by instructions like these:
Alexa (or Echo), turn on the Light Switch
Alexa (or Echo), turn off the Light Switch

Google Assistant – Activate Smart Life in Google Home App

Preparation
● Have downloaded the Google Home App–compatible with Android (4.2 or higher) or IOS (8.0 or higher) smartphones or tablet.
●Have registered your Google Account.

● Have paired Light Switch with Smart Life App and named it with a recognizable name.
●Have finished setting up Google Home.

STEP 1
Open Google Home App; tap "≡"on the upper left corner; select "More Settings" to enter the next interface.

STEP 2
Choose "Services" in the opptions bar and select "Smart Life"to enter the next interface.

STEP 3
Tap "Link Now", then sign in your Smart Life Account.

STEP 4
Tap "Link Now", after your Smart Life account has linked to Google Assistant, the smart devices will automatically appear.

Command the Device through Your Voice
After the above operation is successful, you can control the device via Google Home.
Firstly, you need to say "OK Google, talk to Smart Life" to wake up the Smart Life. Then you can control the device by instructions like these:
　●ll Turn on the Light Switch
　　Turn off the Light Switch
After Smart Life has been wakened up, you can say "Cancel" or "Stop" toexit Smart Life or say "Nothing" when you hear "What can I do for you." Then you can say "OK Google, talk to Smart Life" to start voice contronl.
